School Information

- Ensure all schools that need it have the "**Use Grading Periods Instead of Terms in Gradebook**" option checked on School Options
    - *Most Districts will want this enabled, but if you're unsure please reach out to Support*
    - Gradebook Grading periods allow individual marking periods to be stand-alone grading periods within a semester rather than grading periods with a running average for the entire semester in a teacher's gradebook.

Special Programs

- Which Program records need to be closed?
- If any Program records need to be reopened after Rollover, let your Rollover Rep know
    - Ex: Codes 146 and 147 are common ones that need to be reopened for the new year
- Do you want to keep Program Screenings or start fresh in the new year?
    - Because Program Screenings don't have an End Date, some districts opt for starting fresh
