Setup & Configuration

- Process and procedures: who will do what?
- System configuration to reflect above
 - Security permissions
 - Default Code Management, Update Code Table

Email notification to specific individuals when Intervention Referrals are submitted or approved can be set up in the School Options screen for each school. An email notification will be sent to the email address(s) in the Referral Submission Notification Email Address(s) when a new Intervention Referral is created.

The screenshot shows a web interface for 'School Options'. At the top, there is a dark blue header bar with the text 'School Options' on the left and an 'Edit' button with a pencil icon on the right. Below this is a section titled 'Intervention Referral Settings' in a light gray box. This section contains two input fields: 'Referral Submission Notification Email Address(s):' and 'Referral Approval Notification Email Address(s):'. Below these fields is a section titled 'Allowable Codes / Codes Allowed'.

Pre-Referral Interventions

- Typically begins with teachers
- Record details about areas of difficulty for students and strategies used to address them
- Teachers see entries from other teachers (read only)

Referrals to Interventions

- Available after one or more pre-referral interventions
- Who will create Referrals? (teachers, counselors, admins?)
- Include Details, Student Strengths, Reasons for Referral, Prior Intervention

Intervention Referral Approval

- Allows designated staff to approve/deny Referral after reviewing details
- Approval asks for reason for approval, includes ability to schedule an initial meeting
- Denial asks for a reason and suggested resolution

Intervention Page

- Once a referral is approved, one can initiate Intervention Details directly from the referral
- Other available pages in Interventions include:
 - Stakeholders
 - Goals
 - Progress Comments
 - Meetings
 - Prior Interventions
 - Reasons & Concerns
 - Student Strengths
 - Additional Resources
 - Practices
 - Documents
