Transcript Repeat Tags

- How to Identify Students with Repeated Courses
- How do the Tags function
- What tag to use?

What is a Repeat Tag

- A Repeat Tag is a value that can be added to a student's transcript in order to identify a course that has been repeated so that a student may achieve a better grade
- There are 6 different tags that may be used
- Each tag produces different transcript calculation results for the following areas:
 - Credits Attempted
 - Credits Completed
 - Grade Point Average Calculation

Transcript Repeat Tags

NEED TO KNOW

- Transcript Page (HIS)
- Graduation Requirements and Graduation Tracks
- Functionality of each repeat tag
- How to identify repeated courses
- How to assign a repeat tag to a transcript record

Transcript Repeat Tags

NICE TO KNOW

- GPA Calculation Process
- Tables that affect Transcripts
 - Courses (CRS)
 - Valid Marks
 - UC/CSU Requirements

Built-In GPA's

Marking Period GPA's
Cumulative GPA's

Grade Points for each mark are set up in Valid Marks Table

Grade points are multiplied by credit value and divided by the total credits attempted to compute GPA.

Weighted GPA's use additional grade points for identified marks in the calculation allowing GPA's to exceed 4.0

Unweighted GPA's ignore additional grade points. GPA will not exceed 4.0

Built-In GPA's

	Grade Reporting (GRD)		Cumulative (HIS)		
	Total	Academic	Total	Academic	10-12
Weighted	GT	GG	TP	GP	CP
Unweighted	GTN	GGN	TPN	GPN	CPN
Add-On Weighted	GTA	GGA	TPA	GPA	CPA

Additionally, there are the 2 Preliminary Academic GPAs for the University of California and California State College entrance (**PUC** and **PCS**).

GPA Calculation – Incorrect Way

Add grade points received for each class and divide by the number of classes. This method works ONLY when all credit values are the same. In the scenario below, the Language Arts class worth 10 credits receives no more value than any of the 5 credit classes – not a good thing.

Class	Mark Received	Grade Points	Credit Value	Process = Grade Points/Classes
Language Arts	B	3	10	
Math	A	4	5	
Science	C	2	5	
PE	F	0	5	
Social Science	D	1	5	
Totals	5 Classes	10 Grade Points	30 Credits ATT	10/5 = 2.0

GPA Calculation – Correct Way

Multiply grade points received for each class by credits attempted for each class.

Add total grade points received and divide by total number of credits attempted.

In the scenario below, the Language Arts class worth 10 credits receives twice the value of grade points as the 5 credit classes. This is a good thing, and the calculation is correct.

Class	Mark Received	Grade Points	Credit Value	Total Grade Points	Process = multiply grade points from each class x credits attempted for each class, then divide Tot GP's by total CR
Language Arts	B	3	X 10	30	
Math	A	4	X 5	20	
Science	C	2	X 5	10	
PE	F	0	X 5	0	
Social Science	D	1	X 5	5	
Totals	5 Classes	10 Grade Points	30 Credits ATT	65 Total Grade Points	65/ 30 = 2.166

Repeat Tag Functionality

Repeat Tag (HIS.RT)	Credit Attempted	Credit Completed	Count in GPA
Blank entry	YES	YES	YES
2 or N	NO	NO	NO
3 or B	YES	YES	NO
4 or R	YES	NO	YES
5 or A	YES	NO	NO
6 or G	NO	NO	YES

Legend in the following slides

***CA = Credits attempted – CC = Credits Completed - GPA =
count in GPA***

How to identify Students with Repeated Courses

Report – Students with Repeated Courses

If district uses different course IDs for repeated courses, perhaps use a User Field in CRS to identify those Courses. Then run a Query.

```
LIST STU HIS CRS STU.ID STU.NM STU.GR HIS.YR HIS.TE HIS.CN  
HIS.MK CRS.CO CRS.U2 BY CRS.CN IF CRS.UC2 : R
```

Scenario – No Repeat Tag
Mark of F on the 1st Take – Mark of C
on the 2nd Take
Repeat Tag = Blank

Student receives an F in a course on 1st take and a passing grade 2nd take

If No repeat tag on either course –Repeat tag field is blank = count everywhere – CA, CC, count in GPA

Outcome - GPA and Credits - CA = 10, CC = 5, GPA = 1.0

Outcome - Grad Status – 5 credits of Math Completed

GPA

Recompute GPA

This process will recompute the student's built-in gpa and any district gpas defined below.

Credits Needed205.00

Scenario – Repeat Tag of G on 1st Take

F on the 1st Take, C on the 2nd Take

CA not counted, CC not counted, GPA calculated

Outcome Credits & GPA

CA = 5, CC = 5, 1.0 GPA

Outcome - Grad Status
5 credits of Math completed

GPA

Recompute GPA

This process will recompute the student's built-in gpa and any district gpas defined below.

(W) Acad GPA	(W) Total GPA	(W) 10-12 GPA	Credit Att/Compl	Class Rank/Size
1.0000 1.0000	1.0000 1.0000	0.0000 0.0000	5.00 5.00	464 of 490

Repeat Tag Functionality Summary

In general – repeat tags go on the 1st take entry

Exception – student repeats a course and gets a lower mark on the 2nd take.

Repeat tag of R

- Most used

- Best use is for repeats to improve a mark, not replace a deficiency

- Also used for occasions where student received a lower mark on the 2nd take

Repeat tag of N

- Essentially removes the mark from any calculation

Repeat tag of B

- Removes the mark from the GPA calculation, but counts in CA and CC

Repeat tag of A - Counts in CA but not in CC or GPA

Repeat tag of G – removes from CA and CC, but counts in GPA

Blank – no repeat tag

Decision Time – What Tag to Use?

Follow district policy

Decide how to tackle Cal Grant GPA

Cal Grant extract – can choose to exclude identified Repeat Tags

Repeat Tags to include in the GPA Calculation:					
	Include	Exclude		Include	Exclude
(BLANK)	<input checked="" type="radio"/>	<input type="radio"/>	4 or R	<input type="radio"/>	<input checked="" type="radio"/>
2 or N	<input type="radio"/>	<input checked="" type="radio"/>	5 or A	<input type="radio"/>	<input checked="" type="radio"/>
3 or B	<input type="radio"/>	<input checked="" type="radio"/>	6 or G	<input checked="" type="radio"/>	<input type="radio"/>

THANK YOU!

Upcoming GMA Workshops – 9:00 AM

- GMA – Transcripts – Things to Print – April 11, 2024
- GMA – Career Pathway Management– April 16, 2024
- GMA – Secondary Standards Based Grades – April 23, 2024
