# Course Description

Aeries Analytics™ is a next-generation reporting system for data analysis, fully integrated into the Aeries® SIS. This course will review the features and setup of Analytics including:

- **Dashboards** - unlimited custom and dynamic dashboards that will provide summary and individual level data on indicators that you identify
- **Early Dropout Warning System** – monitors student attendance, grades, testing data and more to provide automatic identification of students at-risk of failing/not graduating so that interventions can be implemented in a timely manner

# Measures

## What will you assess? – Definitions (Indicators)

- Tests
- Attendance
- Grades
- Field Values
- Programs
- Graduation Requirements

## How will you measure? – Label Layout

- Rubrics

## What do you want students to achieve?

- Thresholds
- Early Warning Values

results

## What populations do you want to disaggregate?

Subgroups

## How will you see the results

**Summary Tab** - Gives the big Picture

List of percentage breakouts for each definition

Listed by school and grade -

**Analysis Indicator Qualifications** - Individual Student Results

Overall Early Warning Values

Indicators, Dates, Results, Color Codes, Indicator Qualifying Value, Early

Warning values for the indicator

**Dashboards** - Aeries Analytics - allows you to define unique ways of looking at the data

Admin/Counseling Dashboards AND teacher dashboards

School wide data dashboards & Subgroup dashboards

Watch lists

# Additional Indicators

- Current grades (Based on Teacher Gradebooks)
- Credit Completion
- Attendance
- Discipline
- Testing/Assessment Data
- Program Participation
- Watch Lists

# Key Takeaways

- ✓ Navigating the Aeries Analytics Dashboards
- ✓ Viewing and filtering data
- ✓ Configuring the Early Warning System
- ✓ Defining and monitor student sub-groups
- ✓ Creating various Dashboard Items
- ✓ Sharing Dashboards

THANK YOU
